WORK EXPERIENCE

Software Engineer
Blackcoffer

07/2024 - Present   *Delhi,India*

Blackcoffer - Consulting, Big Data Analytics, IT Services, IT Outsourcing, Application Development

Achievements/Tasks

- Delivered multiple full-stack projects from conception to **deployment** on **AWS/GCP** , architecting **backends** with **Express**.js and **Supabase/PostgreSQL**, and building responsive frontends with **React.js/Next.js** and **Zustand/Redux.**

- Developed an **NLP**-driven automation engine using **OpenAI** and **libreoffice-convert** to process complex documents (contracts, RFPs, SOPs), significantly **reducing manual compliance** and **audit times.**

- Leveraged **Windows Subsystem for Linux** (WSL) to create a smooth development experience with cross-platform compatibility.

- Currently developing **Aptify** , an agentic **AI platform** for a **US-based client.**

Full Stack Web Developer
Vedobi- Venture of BHPPl

04/2023 - 07/2024   *New Delhi , India*

Vedobi - E-commerce Website

Achievements/Tasks

- **Developed** and **implemented** an intuitive **admin dashboard** , revolutionizing product management by enabling seamless addition, deletion, and monitoring of products on the website; resulting in a 40% reduction in time spent on product updates and increased overall website efficiency.

- **Deployed** both the backend and frontend on AWS for robust **hosting** and **accessibility** .

- **Created** and launched a series of **landing pages** for campaign, resulting in a 20% increase in conversion rates.

- Tech stack used :- **JS, Reactjs, Nodejs, MongoDB, php.**

- **Website Link:** https://www.vedobi.com/.

EDUCATION

B.Tech Computer Science & Engineering
Guru Gobind Singh Indraprastha University

01/2020 - 06/2024   *8.87 CGPA*

Senior Secondary or Class 12th
DSM Public Sr. Sec. School

03/2018 - 03/2019   *74%*

SKILLS

NextJS · ReactJS · ExpressJS · NodeJS · Supabase · Zustand · MongoDB · Mysql · Postgre SQl · Version Control · CI/CD Pipelines · GCP | AWS · REST API · Fast API · Tailwind CSS · Javascript · Docker · Typescript · Microservices

PERSONAL PROJECTS

Aptify : Developed AI-driven datacenter solution, optimized operations. (04/2025 - Present)

- Developed Aptify, an agentic AI platform for datacenter operations using **natural language processing** and collaborative AI agents, integrating with **DCIM** systems to provide **real-time insights**, predictive maintenance, and contract/RFP automation for **99.999%** uptime environments.

- Built custom agents from **SOPs/MOPs** for operational **efficiency**, automating audits/compliance and fast-tracking onboarding, showcased at *https://app.apti-fy.ai/.*

- Tech stack used :- **Nextjs, Supabase,OpenAI, libreoffice-convert, Sendgrid, Google-drive-picker, tailwindCSS, Zustand.**

READ: Converting STIX outputs into advanced models using GraphDB and ReactJS (07/2024 - 01/2025)

- Developed READ, a cybersecurity threat intelligence platform using **ReactJS, Node.js, and GraphDB** to convert **STIX 2.1** data into **analytical models**, processing **50TB+** threat data and profiling 500+ actors.

- Implemented **D3.js** visualizations and **REST APIs** with **Docker**, enabling real-time threat feeds and IOC analysis for 10,000+ indicators, enhancing detection efficiency.

- Designed and deployed a scalable data processing pipeline incorporating REST APIs, Docker for containerization, and **Elasticsearch** for analytics, automating report generation and **real-time** threat intelligence feeds to streamline cybersecurity operations and reduce response times.

WorkRise: Your Platform for Freelance Services (03/2024 - 05/2024)

- WorkRise is a cutting-edge freelance platform designed to streamline the process of **connecting freelancers with clients** . Leveraging advanced technologies, Api's and Payment Gateway integration (**Stripe**).

- Engineered and deployed "WorkRise," a full-stack freelance marketplace, integrating the **Stripe API** for **payment** processing and implementing secure JWT-based user authentication using a Next.js, Express.js, and PostgreSQL/Prisma stack.

- User **authentication** and authorization with **JWt-token.**

- Technologies: **NextJS, NodeJS, ExpressJS, APIs, PostGreSql, Prisma, JavaScript, Tailwind CSS, Stripe, Vercel.**
